Dear Teacher,

From all the Richmond team we'd like to transmit our hope that this Teacher's Resource Book helps you and your students to make the most of the **GO! 6** project. You will find the following three areas inside, each containing worksheets, their corresponding answer key and where appropriate, the audio transcript. These areas are designed to cover all the possible needs, queries or difficulties your students may have.

Language:

The worksheets comprising this section focus on the vocabulary and structures presented in the Student's Book. You will find the most appropriate moment for the students to work with the material indicated in the Teacher's Book.

To help with the mixed ability in your class we have provided the worksheets at three levels: the reinforcement worksheets have been created to ensure that all students have an opportunity to assimilate the essential structures. The consolidation worksheets will allow you to see how the students are progressing with their learning. The extension worksheets are for those students who can go a step further and may need the extra input to stimulate them. With these three levels we give all the children the opportunity of extra practice and development.

CLIL:

In this section you will find more practice to help your students to understand the broader topics covered in Lesson 4 of the Student's Book. Through interesting facts and details about the world and their environment, the children will take new terminology on board effortlessly. All CLIL topics reflect areas that have been covered in their equivalent school subject, thus making their comprehension easier for the student.

Tests:

You will find four types of tests: a general diagnostic test, unit, term, and end of year tests. This format allows you to choose the most appropriate time to gauge the level of your students' understanding and assimilation of new language. The diagnostic test can be used both with new students and returning students as an indication for the teacher of the class level after the long summer holidays. The remaining tests are both varied and thorough and will consolidate the language worksheets. The tests include work on the four basic skills and include two different versions for the same unit based on level of difficulty in order to meet the needs of your students.

Warm regards,

The Richmond editorial team

NAME : _____ CLASS : _____

3 Read and answer.

At school we're learning about Europe and we each have to find interesting facts about a country. I'm doing Sweden. This is what I have got so far.

Sweden is physically the third largest country in Europe after France and Spain. Its capital and biggest city is Stockholm.

Sweden is a very green, eco country, they are one of the world leaders in environmental issues. They are very good at recycling their rubbish. It's one of the countries with the cleanest air in the world.

Over half the country is covered in forests. There are also rivers, glaciers, about 100,000 lakes and over 24,000 islands. Stockholm is a collection of 14 islands, all connected by bridges. It hasn't really got any skyscrapers.

Sweden has got the largest scale model of the solar system in the world. It stretches 950km across the country. The Sun is represented by the Globen building in Stockholm. The first planet, Mercury, is nearly 3km from the representation of the Sun.

Over 1,000 years ago Sweden was home to the Vikings. They were probably the scariest invaders in the world.

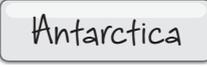

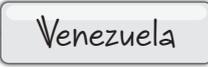

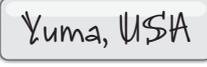

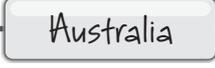

- 1 Is Sweden bigger than France? _____
- 2 Is Sweden a very polluted country? _____
- 3 How many islands are there in the capital city? _____
- 4 How long is the model of the solar system in Sweden? _____
- 5 When did the Vikings live in Sweden? _____

4 Look at the answers and write the questions.

- 1 **high** What's _____ in the world? **Mount Everest.**
- 2 **long** _____ in Europe? **The River Volga.**
- 3 **tall building** Where _____ in the UK? **In London.**
- 4 **big city** _____ in Asia? **Tokyo.**
- 5 **deep lake** _____ in the world? **In Russia.**
- 6 **old roller coaster** How _____ in America? **Over 115 years old.**

- 3 Where's _____ place in school? _____
- 4 Who's _____ person you know? _____
- 5 Which is _____ ice cream flavour for you? _____
- 6 Which is _____ season of the year? _____

NAME : _____ CLASS : _____

3 Read and answer.

At school we're learning about Europe and we each have to find interesting facts about a country. I'm doing Sweden. This is what I have got so far.

Sweden is physically the third largest country in Europe after France and Spain. Its capital and biggest city is Stockholm.

Sweden is a very green, eco country, they are one of the world leaders in environmental issues. They are very good at recycling their rubbish. It's one of the countries with the cleanest air in the world.

Over half the country is covered in forests. There are also rivers, glaciers, about 100,000 lakes and over 24,000 islands. In fact, Stockholm is a collection of 14 islands, all connected by bridges. It hasn't really have got skyscrapers.

Sweden has the largest scale model of the solar system in the world. It stretches 950km across the country. The Sun is represented by the Globen building in Stockholm. The first planet, Mercury, is nearly 3km from the representation of the Sun.

Over 1,000 years ago Sweden was home to the Vikings. They were probably the scariest invaders in the world. It also had the longest cable car in the world but it's closed now. It was 42km long but it carried limestone, not people.

- 1 Compare the size of France and Sweden. _____
- 2 Is Sweden a very polluted country? _____
- 3 How many islands are there in the capital city? _____
- 4 How long is the model of the solar system in Sweden? _____
- 5 When did the Vikings live in Sweden? _____
- 6 How long was the longest cable car in the world? _____

4 Look at the answers and write the questions.

- 1 high _____ in the world? Mount Everest.
- 2 long _____ in Europe? The River Volga.
- 3 tall building _____ in the UK? In London.
- 4 big city _____ in Asia? Tokyo.
- 5 deep lake _____ in the world? In Russia.
- 6 old roller coaster _____ in America? Over 115 years old.
